CONVERTING TO THE MONARCH® 6035™ PRINTER

The Monarch® DOS-based Pathfinder® Ultra® 6035 printer is very similar to the 6030™ printer you are used to. There are a few differences, but you should find it very easy to start using this new printer, based on your experience with the 6030 printer. These instructions describe the differences.

Getting Started

Before starting, review the 6035 printer's Equipment Manual to learn about any differences between it and the 6030 printer.

Refer to these topics in particular when reviewing the manual:

♦ "Charging the Backup Battery"

♦ "About the Display"

♦ "About the Keypad"

♦ "About Data Entry Modes"

♦ "Loading Supplies"

Using New Keys

Because the two printers have some different keys, you must use new keys to perform the same functions.

| To...	Use this key on this printer...	
	6030	**6035**
Load supplies	(Load)	(Fct) , then (0) (outside of an application).
The function keys	(F1) - (F6)	(Fct) , then (1) - (6)
Clear data from the display	(Clear)	(BKSP)
Scroll through menus	(←) and (→)	(∧) and (∨)

Loading Supplies

The loading supplies procedure described in the 6035 Equipment Manual is only part of the loading procedure. Following is the complete procedure. You cannot run an application while doing it.

1. Press (Fct) , then (0) . You will see:

```
Trigger to feed
ESC to Calibrate
```

2. Load the supplies as described in the 6035 Equipment Manual.

3. Press the trigger to feed some supplies.

4. Press Ⓔˢᶜ to calibrate the supplies. You will see:

```
