Introduction

The TRG 3000 Trigger Handle adds a gun-style handle with a scanning trigger to your terminal, increasing comfort when using the terminal in scan-intensive applications for extended periods of time.

Note: If you are using an SPT 1700 or a PPT 2700, you may need to download an application file to enable the terminal to work with the trigger handle. Visit www.symbol.com for more information.

If you perform a hard reset on the terminal after downloading this file, the file will be lost, and must be re-loaded.

Inserting the Terminal in the Trigger Handle

1. Install the proper software on the terminal, if applicable.
2. Slide the terminal into the Trigger Handle until it locks in place.

Note: For some terminal models, you must remove the filler block from the front of the handle.

Configuring the Trigger Handle

In order to use the Trigger Handle with your terminal you must enable the software in your terminal.

SPT 17xx Terminal

Custom software must be installed in your SPT 1700 terminal in order for the Trigger Handle to work.

TRG 3000 Trigger Handle

1. Go to the Symbol devzone website at <http://devzone.symbol.com> and login.
2. Go to developer downloads and then Palm downloads. Select SPT 1700 Series and then TRG3000 Pistol Grip Software.
3. Click on the link to download the software.
4. Install the software onto the terminal.
5. After installation is complete perform a soft reset.

SPT 18xx Terminal with 3.5 Operating System

The software is already embedded into the terminal. Once the trigger Handle is installed the scanning function is activated by pulling the trigger.

SPT 18xx Terminal with 4.1 Operating System

The software is already embedded into the terminal but is set to off by default.

1. Attach the terminal to the Trigger Handle.
2. Go to the Symbol Preferences screen in your terminal.
3. To enable the trigger function Tap the Trigger Sled check box.

PPT 2800 Symbol Setting - Ext. 5 Volts

In order to operate properly, the PPT 2800 requires that external 5 volts be enabled in the Symbol Settings control panel.

There are 3 possible settings for the Ext. 5 volt option:

- Off - This is the default option. The Trigger Handle will not operate with this setting selected.
- Always On - Select this option to enable 5 volts, even when the terminal is off (suspended).
- Active On - Select this option to enable 5 volts only when the terminal is on (not suspended).

Q u i c k R e f e r e n c e

This option is accessed as follows:

1. Press the Start button.
2. Select Settings in the Start menu.
3. Select the System tab.
4. Select Symbol Settings.
5. Select the Settings tab.
6. Select the Ext. 5 volt setting desired.

Removing the Terminal from the Trigger Handle

To remove the terminal, press down the release spring and pull the terminal forward.

Note: Remove the Trigger Handle when synchronizing with the desktop computer. Wireless synchronization can be performed while the handle is attached. For more information, see your terminal's *Quick Reference Guide* and *Product Reference Guide*.

Scanning

To scan bar codes using the Trigger Handle:

1. Start the terminal's scanning application.
2. Aim the terminal at the bar code.
3. Pull the trigger on the handle. Make sure the red scan beam covers the entire bar code. The green scan LED lights and a beep sounds to indicate a successful decode.

For more information on terminal scanner functions, see the terminal's *Product Reference Guide*.

Troubleshooting

If the terminal is not decoding:

- Ensure the Trigger Handle is attached properly and making contact with the synchronization port.
- Verify that the terminal contains a scanning application.
- Ensure the bar code is not defaced.
- Ensure you are within proper scanning range.
- Ensure the Trigger Handle application file is loaded on the terminal.
- Ensure the terminal is programmed to accept the type of bar code you are scanning.
- Ensure the parameters are set correctly for the bar code being scanned; e.g., lengths, symbology.

Regulatory Information

Ergonomic Recommendations

Caution: In order to avoid or minimize the potential risk of ergonomic injury follow the recommendations below. Consult with your local Health & Safety Manager to ensure that you are adhering to your company's safety programs to prevent employee injury.

- Reduce or eliminate repetitive motion
- Maintain a natural position
- Reduce or eliminate excessive force
- Keep objects that are used frequently within easy reach
- Perform tasks at correct heights
- Reduce or eliminate vibration
- Reduce or eliminate direct pressure
- Provide adjustable workstations
- Provide adequate clearance
- Provide a suitable working environment
- Improve work procedures.

Regulatory Information

All Symbol devices are designed to be compliant with rules and regulations in locations they are sold and will be labeled as required.

Any changes or modifications to Symbol Technologies equipment, not expressly approved by Symbol Technologies, could void the user's authority to operate the equipment.

Warranty

(A) Seller's hardware Products are warranted against defects in workmanship and materials for a period of twelve (12) months from the date of shipment, provided the Product remains unmodified and is operated under normal and proper conditions. Warranty provisions and durations on software, integrated installed systems, Product modified or designed to meet specific customer specifications ("Custom Products"), remanufactured products, and reconditioned or upgraded products, shall be as provided in the applicable Product specification in effect at the time of purchase or in the accompanying software license. (B) Products may be serviced or manufactured with parts, components, or subassemblies that originate from returned products and that have been tested as meeting applicable specifications for equivalent new material and Products. The sole obligation of Seller for defective hardware Products is limited to repair or replacement (at Seller's option) on a "return to service depot" basis with prior Seller authorization. Shipment to and from Seller will be at Seller's expense, unless no defect is found. No charge will be made to Buyer for replacement parts for warranty repairs. Seller is not responsible for any damage to or loss of any software programs, data or removable data storage media, or the restoration or reinstallation of any software programs or data other than the software, if any, installed by Seller during manufacture of the Product. The aforementioned provisions do not extend the original warranty period of any Product that had either been repaired or replaced by Seller. (C) The above warranty provisions shall not apply to any Product (i) which has been repaired, tampered with, altered or modified, except by Seller's authorized service personnel; (ii) in which the defects or damage to the Product result from normal wear and tear, misuse, negligence, improper storage, water or other liquids, battery leakage or failure to perform operator handling and scheduled maintenance instructions supplied by Seller; (iii) which has been subjected to unusual physical or electrical stress, abuse, or accident, or forces or exposure beyond normal use within the specified operational and environmental parameters set forth in the applicable Product specification; nor shall the above warranty provisions apply to any expendable or consumable items, such as batteries, supplied with the Product. EXCEPT FOR THE WARRANTY OF TITLE AND THE EXPRESS WARRANTIES STATED ABOVE, SELLER DISCLAIMS ALL WARRANTIES ON PRODUCTS FURNISHED HERUNDER INCLUDING ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. ANY IMPLIED WARRANTIES THAT MAY BE IMPOSED BY LAW ARE LIMITED IN DURATION TO THE LIMITED WARRANTY PERIOD. SOME STATES OR COUNTRIES DO NOT ALLOW A LIMITATION ON HOW LONG AN IMPLIED WARRANTY LASTS OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR CONSUMER PRODUCTS. IN SUCH STATES OR COUNTRIES, FOR SUCH PRODUCTS, SOME EXCLUSIONS OR LIMITATIONS OF THIS LIMITED WARRANTY MAY NOT APPLY. The stated express warranties are in lieu of all obligations or liabilities on the part of Seller for damages, including but not limited to, special, indirect or consequential damages arising out of or in connection with the use or performance of the Product or service. Seller's liability for damages to Buyer or others resulting from the use of any Product or service furnished hereunder shall in no way exceed the purchase price of said Product or the fair market value of said service, except in instances of injury to persons or property.

Service Information

Before you use the unit, it must be configured to operate in your facility's network and run your applications.

If you have a problem running your unit or using your equipment, contact your facility's Technical or Systems Support. If there is a problem with the equipment, they will contact the Symbol Support Center:
