CYBER SERIES

Biometric

The Biometric Cyber Series is a time and data collection terminal that sets a new standard in the industry by incorporating your choice of two proven finger scan technologies: E-field or capacitive sensor. The Cyber Series is able to provide security that will save your company money through the elimination of buddy-punching and time theft. Enjoy all the benefits of Biometric technology in the Cyber Series without having to break the bank.

- Single or multi-clock environment
- Up to 1MB of RAM
- Up to 512KB Flash
- EIA Standard RS232 or RS485 compatible
- 10/100BASE-T Ethernet
- Fingerprint E-field or capacitive sensor technology
- On-board setup and diagnostics utility
- Digital bar code wand port
- Expansion slot for support of plug-in options
- External proximity reader support

Specifications

DISPLAY 4 line x 20 character super twist LCD

CLOCK 12 or 24 hour format, USA or international (quartz precision)
Time stamp of data transactions

KEYPAD Software-defined function keys
Large 20-key tactile 4x5 matrix
Custom user-defined keypad legends

MEMORY Up to 1MB RAM available
Up to 512k flash memory

PROGRAMMING ATS Universal Command Set, C programming language, or
third-party custom application packages

SELF-TEST On-board setup and full-feature diagnostics

INTERFACE 802.3 10/100BASE-T Ethernet (optional)
EIA Standard RS232 or RS485
Internal modem (optional)
Optional DI/DO or serial interface printer port

ENCLOSURE Die cast aluminum housing with key-lockable base

POWER +10 to +17 VDC (12 nominal)
Optional non-interruptible power source with charger

ENVIRONMENT Operation: 32˚ to 110˚F (0˚ to 43˚C)

PHYSICAL Size: 7.25" x 10" x 4" (18.4cm x 25.4cm x 10.2cm)
Weight: 2.45 lbs. (2.2 kg.)

CERTIFICATIONS CE Mark, FCC Part 15 and Part 68

ACCESSORIES • Integrated visable or infrared bar code slot readers
• Integrated magnetic slot readers
• Solid state or dry contact relay modules
• Integrated or external proximity readers
• Serial interface printer port
