

MOBILE COMPUTER

# Norand® PEN\*KEY® 6622

**Benefits:**

- Large 8.4" Active Matrix Color VGA Screen
- AMD® 5X86 Processor at 133MHz
- Standard with 16MB RAM, expandable to 32MB
- 1GB hard disk drive
- 4MB IrDA® communications
- Windows 95® operating system
- Standard with CIC HRS 5.0®
- Built-in sound functions

**Norand® PEN\*KEY® 6622 Revolutionizes Data Collection.** The new Norand 6622 Mobile Computer combines desktop PC performance with hand-held portability. This powerful computer offers the latest Windows® applications, large color display and maximum power in a lightweight, go anywhere unit. The 6622 is the ultimate sales automation tool. It extends office computing capabilities to front-line workers.

**Lightweight PC Power is Here Now.** A large 8.4" Active Matrix Color VGA display with up to 65,536 colors presents information in a clear, easy-to-read format. With pre-installed Microsoft Windows 95® and CIC HRS 5.0®, users can run popular business applications and advanced handwriting recognizers. Weighing just 3.1 pounds with battery packs, the 6622 features a powerful AMD® 5X86 processor, 16MB RAM, 1GB HDD and dual battery packs. This well designed, compact unit gives the user the functionality and features of Windows 95 in a lightweight, portable device.

**Durable Yet Versatile.** The 6622 is capable of handling powerful computing wherever you need it. The durable lid protects the screen from moisture and scratches. Integrated desktop stand, Sound Blaster PRO® and external keyboard make the 6622 a valuable asset for almost any application. Integrated holder provides easy storage for the pen stylus. A programmable keypad may be customized to meet specific application needs.

**Expansion Possibilities:**

*IrDA® communications:* With standard version 1.1 IrDA, the 6622 allows for network integration and communication with printers and other IrDA compatible devices without the use of cables.

*PC Card Slots:* PC Card slots may be used for additional data storage, fax/modem cards and other technologies.

*Standard Connector Serial and Parallel:* Serial and parallel interfaces, keyboard connection and external speaker connection allow for maximum configurability and easy system expansion.
