

PenWare 1500

Electronic Signature Capture for a Paperless Environment

TRANSACTION SYSTEMS

Save Time and Money with Electronic Signature Capture

With the PenWare 1500 terminal from Symbol Technologies, electronic signatures are stored safely and can easily be added to transaction documentation. This creates a paperless environment to eliminate filing, storage and physical handling of paper receipts. Installation is simple. The small size allows the PenWare 1500 to fit on nearly any counter. The PenWare 1500 was originally developed by @pos, which was acquired by Symbol in 2002.

Performance in Demanding Environments and a World of Applications

With a history of millions of electronic signatures already captured, you can count on the PenWare 1500 for reliability and durability in the most demanding environments. The PenWare 1500 streamlines transaction processing in industries beyond retail point-of-sale, including government, security, insurance and finance, and in applications from documentation, drivers licenses and employee badges to student ID cards, membership cards, and many others.

To find out how the PenWare 1500 can streamline your payment processing, visit www.symbol.com/atpos

About Symbol

Symbol Technologies, Inc. (NYSE:SBL), founded in 1975, is a global leader in secure mobile information systems that integrate application-specific hand-held computers with wireless networks for data and voice and bar code data capture. Symbol products and services increase productivity and reduce costs for the world's leading
