Monarch® Pathfinder® Ultra® Gold 6037™ Printer

Increase productivity with the fastest, most efficient handheld Monarch® scanner-printer.

Monarch® Pathfinder® Ultra® Gold 6037™ Printer

A multi-functional workhorse designed to increase productivity throughout the retail supply chain. A lightweight, one-piece handheld PC, thermal printer and laser scanner, it is a masterful solution for a myriad of applications. Whatever your application, you will see increased productivity, increased accuracy and increased efficiency.

Monarch®
Products & Services

Value. Speed. Durability. Connectivity.

Take Productivity to New Heights

The Monarch Pathfinder Ultra Gold handheld computer/printer gives you enhanced capabilities for a full range of functions across the retail supply chain. You can streamline receiving, inventory control, price changing and clearance ticketing. Here are just a few ways you can benefit from the Monarch Pathfinder Ultra Gold printer:

Increase Productivity
Automate information transfers, speed up information input and reduce steps in cross-docking operations.

Increase Accuracy
Eliminate key entry errors, save time on re-marking, reduce shipping paperwork and allow employees to work faster.

Increase Efficiency
One-piece solution with four functions:
Scan, Data Look-Up, Print and Apply.

Increase Sales
Keep popular products in stock with automated reordering. Employees can perform marking activities on the sales floor.

Improve Customer Satisfaction
On-time, on-target deliveries give you a competitive edge, with fewer mis-marked items.
Polishes Your Brand Image
Clear, distinct printing of human readable and bar code information.

Features and Specs at a Glance
