The hand held, battery-operated FreeStyle HD detects and deactivates Ultra·Strip™ II and Ultra·Strip™ III anti-theft EAS labels anywhere in the store.

The wireless deactivator provides complete flexibility and mobility. It can be used at the store's exit to detect and deactivate labels, at the Point-Of-Sale (POS) for items that are too large to be removed from a cart, or throughout the store to verify labels on source tagged merchandise. The deactivator's performance range allows the end user to deactivate both source tagged and retailer tagged merchandise.

Designed in close cooperation with retailers, FreeStyle HD helps ensure maximum EAS effectiveness and ease of use.

The FreeStyle HD is part of Sensormatic's Extended Security Technologies™ suite of integrated products and services.
